The Annual August Sale of

Wool Bed Blankets

Begins Monday, August Second

This August sale presents an opportunity to buy good blankets at the lowest prices. They are not what we would call perfect blankets, but they will give just as good service. They are samples and seconds.

Some of them have been used to show to the trade and are soiled, while others represent the output of mills that inspect with scrupulous care, and have been held out on account of small defects and classed as seconds.

So you will see that the kind of Blankets that make up this sale are good blankets to buy—and the prices at which they are offered make them a good and economical buy.

About 1/4 to 1/3 less regular prices.
